

TURBINE BLADE BOXES

Our line of turbine/compressor blade boxes are specifically designed to protect critical rotating parts during the MRO process while saving space. By incorporating a stackable design, our boxes are able to utilize all available vertical space. These boxes are also ideal for non-rotating variable guide vanes / stators.

THE KEY BENEFITS OF OUR CUSTOMIZABLE TURBINE BLADE BOXES

- ✓ Blade boxes provide an easy and safe way to transport blades around the shop
- ✓ Space saving stackable design
- ✓ Self locking stackable feature
- ✓ No blade-to-blade contact
- ✓ Ergonomic built in carry handles
- ✓ Visual management clues to number of blades
- ✓ Made out of chemical / oil resistant plastics
- ✓ Ideal for fragile ceramic coated blades
- ✓ Engine model specific for perfect fit and arrangement
